SUMMARY

Professional and experienced Sound Engineer with over 5 years in the studio environment. I specialize in high-quality audio recording, mixing, and mastering. I have a proven track record of managing technical studio operations and delivering crisp, professional sound for various projects, complemented by a background in Information Systems.

TECHNICAL SKILLS

- Audio Engineering: Expert in multi-track recording, mixing, and mastering.
- Software: Proficient in DAWs (Digital Audio Workstations) such as Pro Tools, Logic Pro, and FL Studio.
- Studio Hardware: Skilled in operating mixing consoles, microphones, and signal processors.
- Sound Design: Experienced in noise reduction, equalization, and vocal processing.
- IT Skills: Knowledge of Information Systems, data management, and technical troubleshooting.

PROFESSIONAL EXPERIENCE

Part-Time Sound Engineer | Sound Waves Production

2024 – 2025

- Managed all aspects of audio production, including recording sessions and final post-production.
- Oversaw the technical setup of studio equipment to ensure zero downtime during sessions.
- Collaborated with artists to achieve their desired sound through creative mixing techniques.

Full-Time Sound Engineer | GenX Music

2022 – 2025

- Served as the lead engineer for daily recording sessions, ensuring high-quality audio capture.
- Performed detailed mixing and mastering for a wide variety of musical genres and voice-over projects.
- Maintained and calibrated studio monitors and outboard gear for optimal performance.

Sound Engineer | Minim Studios

2020 – 2022

- Assisted in live recording sessions and handled the initial setup of microphones and cabling.
- Edited raw audio files to remove background noise and improved overall sound clarity.
- Managed studio schedules and client bookings efficiently.
